OAA'96 30TH ANNIVERSARY

ELEVATED STANDARDS ENDURING CONNECTIONS

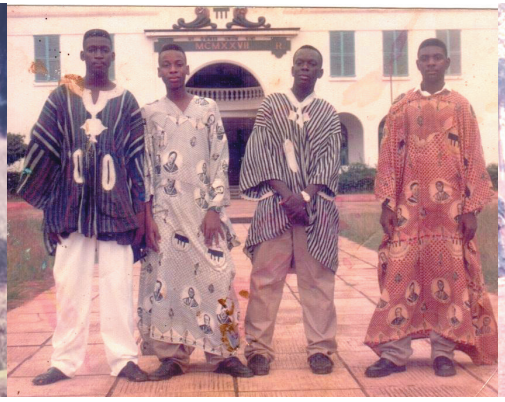
In 1996, dressing up meant a handful of occasions: Recs Night, Speech and Prize-Giving Day, and confirmation. We made the most of every one.

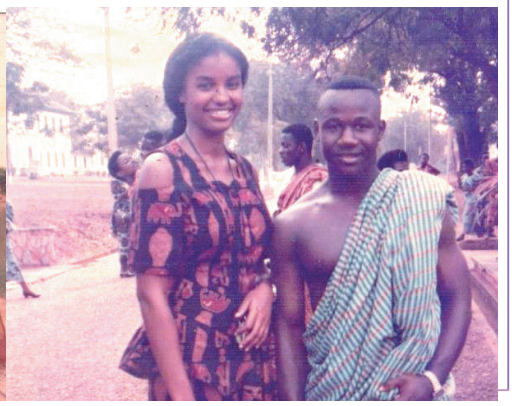
Tonight, school uniforms have given way to sharp suits and stunning gowns. Thirty years on, we still know how to make an entrance.

The stories have grown richer, the friendships deeper, and a few recollections considerably more impressive with each retelling.

Welcome to the President's Ball.
Here's to old friends, familiar laughter, and an evening worthy of the people we've become and the bonds we've kept.

To the Class of '96. Still unmistakably us!





THE WELCOME

Welcome Cocktail, Meet & Greet, Photography & Art Exhibition
Music by Nananom Cultural Troupe

THE FORMALITIES

MCs' Welcome & Spoken Word · Opening Prayer · Welcome Address · School Hymn · Headmaster's Goodwill Message · Musical Interlude · President's Address

THE CELEBRATION

Awards · Dinner & Raffle · Dancing with DJ & KiDi · Champagne Celebration · Toast by OAA President

THE FINALE

Musical Interlude · Handover · School Song: From Gambaga to Accra · Dancing Till Daybreak

WELCOME ADDRESS FROM THE OAA
1996 YEAR GROUP PRESIDENT

THIRTY YEARS. COUNTLESS REASONS TO BE GRATEFUL

Past Presidents of the OAA. The President and Executives of the OAA Akora Headmaster and Leadership of Achimota School Past Heads of Achimota School The Chairman and Members of the ASET Fund Friends of Achimota who have made time to be with us tonight Fellow Akoras of the 1996 Year Group and every generation Ladies and Gentlemen: It is a pleasure to welcome you all to this year's OAA President's Ball, organised by the OAA 1996 Year Group.

Tonight I welcome you all to this event on a note of gratitude.

As President of the 1996 Year Group, I am honoured to express my appreciation to everyone who has made this gathering possible and to celebrate the bond we continue to share after all these years as a year group.

First, we give thanks to God for giving us life, then to Achimota School, our mother, who brought us together and made us brothers and sisters.

And as every mother does she gave us values, traditions, friendships, and memories that we continue to cherish. The school also gave us a shared identity that has kept us

connected over the years.
Over the years our year-group gatherings have provided opportunities for us to reconnect, celebrate our journey, honour our teachers, and give back to the school that helped shape us. The gatherings remind us of the values we learnt and the importance of putting them into practice.

Looking around this room tonight, I am encouraged by the spirit of unity and generosity among us. Thirty years after leaving school, we are still coming together and working towards a common purpose. I believe this would make our school proud.

Finally I am grateful to everyone who has contributed to making this occasion possible. To our planning committee, thank you for your hard work and dedication. To our executives, thank you for taking the initiative and providing leadership. To our sponsors, partners, and donors, we deeply appreciate your support. To the other year groups, your support has been remarkable, and we are truly grateful.

To everyone who bought a ticket, shared an idea, provided a contact, offered assistance, or joined us this evening, thank you. Each contribution has helped make this event possible.

As we celebrate, let us also remember our responsibility to give back to Achimota. The school gave us an education, lasting friendships, and experiences that helped shape our lives. We have an opportunity to support the next generation of students and help secure the school's future. I therefore encourage us all to contribute generously to the Achimota School Endowment Trust (ASET) Fund as we as a year group have committed to do.

To our classmates who could not be with us tonight, you remain an important part of our family, and we look forward to seeing you at our next gathering. As we look to the future, may we continue to cherish our friendships, support one another, and find more ways to contribute to the school we are so proud of.

On behalf of the OAA 1996 Year Group, I want to say thank you. Thank you to the OAA leadership for entrusting us with this responsibility. Thank you to the members of our planning committee and the many Akoras who have worked behind the scenes to make tonight possible. Thank you to our sponsors, partners and donors whose support has helped us bring this event to life. And, most importantly, thank you to every Akora and friend of Achimota who has made the effort to be here tonight. Your presence is what makes this evening special.

May God bless each of you and continue to bless our beloved Achimota School.

Thank you, and enjoy the rest of the evening!

AKORA Maxwell Q. Hammond

THE PRESIDENT'S ADDRESS

THE NEXT 100 YEARS BEGIN WITH US

Past Presidents of the OAA. The Vice President and Executives of the OAA The President, Executives and Members of the 1996 Year Group Akora Headmaster and Leadership of Achimota School Past Heads of Achimota School The Chairman and Members of the ASET Fund Friends of Achimota who have made time to be with us tonight Fellow Akoras of every generation Ladies and Gentlemen:

Let me begin by congratulating the 1996 Year Group on attaining 30 years since you walked out of the gates of the Grey City. Thank you for partnering the OAA once again to put together this beautiful evening. I also extend my sincere gratitude to all our sponsors. Your support, in cash and in kind, has made tonight possible and continues to make so much more possible for Our Mother.

When I stood before you at this Ball last year, I spoke largely about plans. I spoke about structures, about a new vision and mission, and about legacy gifts that were, at the time, mostly ideas, drawings and promises.
Tonight, I am pleased to stand before you and speak about things you can see, touch, walk on ... and, as you will hear shortly, even eat.

FROM PLANS TO PROGRESS.

Fellow Akoras, last year I told you we were 15 months away from Achimota School's 100th anniversary. Tonight, we are just two months away. In January, the year-long celebration of Our Mother's centenary begins.

Once again, I thank our Vice President, Akora Harold Esseku, who chairs the Centenary Planning Committee, and every Akora serving on the many committees bringing the celebrations to life. Your work is about to meet its moment.

To everyone else in this room, my appeal is the same as last year, only more urgent: get involved! The primary department, the secondary department, teaching and non-teaching staff, students, parents and Akoras across the world must come together as one Akora Nation. We are celebrating 100 years of a vision that keeps giving, and 100 years of being "living water to thirsty lands."
Last year we also unveiled our three-year strategic plan, and its first year is now behind us. Our vision remains "to unite and empower the global Achimotan community in service to the school and the world." What I want to share with you tonight is what that vision looks like when it leaves the paper and lands on the Outlaws Hill.
Last year, I announced that work had begun on a new school farm as one of our legacy gifts to Achimota at 100. Tonight, I am delighted to report that the farm is not only operational, it has borne its first fruits.

And what fruits they are! Our first harvest of tomatoes, affectionately nicknamed "AchiMatoes," is already serving the school dining hall. They are also on sale to Akoras and to the general public. If you have not yet bought yours, please contact the OAA Secretariat and do so soon.

I salute once again Akora Leslie Awere-Kyere for his leadership on the farm, Akora David Amankwah for the earth-moving equipment that got us started, Akora Chris Quarshie who's partnering the school on the first part of the project and every Akora and corporate body who heeded our call and supported in any and every way.

Akoras ... I'm not sure when last you passed through the school. I am happy ... no, proud ... to share that we are building the roads that will welcome the world to Achimota. Work on the new roads around the 2nd Oval is well advanced. The drains are almost complete, and asphalting will commence soon. Our aim is to finish before the year-long celebrations begin in January, so that when Akoras and guests come home for the centenary, they arrive on roads befitting Our Mother.

BUILDING BEYOND OUR TIME.

A new clinic for Achimota

Fellow Akoras, tonight I am also proud to announce our next major undertaking. On Tuesday, 3rd November, we will cut the sod for a new Clinic for Achimota School.

The clinic will be the first point of call for health care for the entire Achimota community: our primary and secondary students, and our staff. It will also house a pharmacy and a diagnostic centre equipped with its own CT scanner, MRI, X-ray and other diagnostic equipment.

The pharmacy and diagnostic centre will be open to the public. This is by design. The income they generate will help run the entire facility, so the clinic can sustain itself and serve our students for generations to come.
This is a big dream, and I will not pretend otherwise. So tonight I appeal to every Akora, every friend of Achimota and every corporate body in this room and beyond: help us make it real. We have created a range of sponsorship levels to suit every capacity. In return, your contribution will be recognised in perpetuity, through brass plaques on the walls or rooms named in your honour.
Few gifts touch a student's life as directly as good health care. Let us give Our Mother, at 100, a clinic worthy of her children.
Centenary Square
There is one more project I want to share with you tonight, because it will stand as a lasting record of this moment in our history. We are building The Centenary Square: a state-of-the-art park on the Outlaws Hill, with sitting areas and green spaces for students, staff, Akoras and visitors to enjoy. Most importantly, The Centenary Square will carry monuments and plaques that honour the individual Akoras, Akora families and corporate bodies who support Achimota's Centenary. They will be recognised at the following levels:

Living Water monuments:
5 in number at US$1 million each

Diamond stand-alone plaques:
6 in number at US$250,000 each

Platinum stand-alone plaques:
20 in number at GH¢500,000 each

Gold plaques, embedded in a wall:
30 in number at GH¢300,000 each

Silver plaques, embedded in a wall:
60 in number GH¢200,000 each

The Honour Wall:
names of all who contribute GH¢100,000

This Honour Wall, our Wall of Fame, will also list by name and year group every individual who contributes to the success of the centenary by serving on the various committees etc. Maybe I should qualify that – actively serving ... not writing down your names and vanishing.

And to our Year Groups: every Year Group that meets its levy responsibility of GH¢500,000, or its relevant level, will be recognized on a separate monument for this purpose. Year Groups will will appear in the order in which each Year Group meets its responsibility. So, Year Group leaders, the

race to the top of that monument starts tonight. I am pretty confident that my own Year Group will be atop this list. But who knows? I'm sure other Year Groups have major plans too.
Let me be clear about where these funds will go. They will build the Square and contribute to the celebrations. Most importantly, they will go into the ASET Fund to grow Achimota's endowment, so that Our Mother is supported not just in her 100th year, but for the next hundred.

A LEGACY BUILT TOGETHER.

Year Group legacy projects

None of this progress belongs to the Executive alone. It belongs to you. This year, our Year Groups have once again shown what it means to give back, and I want to thank each of them by name:

The 1976 Year Group, who built brand-new accommodation for our teachers.

The 1986 Year Group, who renovated the Aggrey Chapel, contributed to the ASET Fund, and provided disability access to the Old Assembly Hall. They also linked the Assembly Hall to the Aggrey Chapel, so that the overflow from the Chapel can now take full part in programmes from the Assembly Hall.

The 1994 Year Group, who handed over a new AI and ICT Lab, preparing our students for the world they are inheriting.

The 1995 Year Group, our hosts from last year's Ball, who are completing the basketball court they pledged.

The2001 Year Group, who are renovating and re-tooling the old science lab.

Ladies and gentlemen, please join me in a round of applause for these Year Groups.
Recognising those who serve I also want to recognise the many individuals serving on the Centenary Planning Committees, Akora Yaw Benneh-Amponsah who Chairs the Clinic Project Committee and all the members of the committee and indeed all Akoras serving on various committees of the School Board and the OAA. You give your work days, your evenings, your weekends and your expertise without asking for anything in return. At the right time, each of you will be named and recognised in perpetuity. For now, please accept the heartfelt thanks of the entire Akora Nation.

I'm sure you'd have noticed different structures coming up across the length and breadth of Achimota's Compound. For these I want to recognize the following Akora Architects and their teams:

Akora Ian Quartey who's designed a new dining hall for the Western Compound

Akora Sylvia Larbi – the architect behind the upcoming Centenary Square

Akora Hoffmann Lartey designed of our the new boys dormitories

Akora Cecil Anertey Abbey the architect of the Centenary Legacy Project (the Clinic)

Akora William Yaw Sakyi-Bekoe the architect of one of the new boarding houses and the OAA Secretariat building.

Tonight, also, I want to give special recognition to a group of people who did not pass through the gates of Achimota, yet have chosen to stand with us. These friends of Achimota, non-Akoras all, have given their professional expertise to our projects:

Ing Ato Roberts - MEP Engineer

Mr. Charles Lokko - Quantity Surveyor

Ing Moses Mifetu – Structural Engineer

Ing Kwabena Bempong and the team at Associated Consultants - Structural Engineers

Mr. Nikoe Gavu - Consultant on Water Features

You may not be Akoras by birth or attendance of Ghana's best secondary school by far, but by your generosity you have certainly become Akoras at heart. Thank you. I also extend my gratitude to the OAA Secretariat team for their hard work, and to ALL Akoras who have supported the School and the OAA over the past year.

OUR MOTHER. OUR MOMENT. OUR LEGACY.

Fellow Akoras, in two months, Our Mother turns 100. A school farm feeding her children, new roads leading to her doors, a clinic rising to care for her community, a Centenary Square to honour all who stand with her, and gifts from Year Groups across the generations: these are our birthday presents to her. Let us make sure she receives them in full.

Finally, once again on behalf of us all, I congratulate the 1996 Year Group, its amazing Leadership and its Anniversary Committee. May the Lord bless you as you mark this milestone. And may He, as only He can, continue to meet you and all who are dear to you at the point of every need, to His glory.

Thank you all once again for being here tonight. Now, let's do the awards and start this party!

THE CHAIRMAN OF THE ASET FUND BOARD

A LEGACY THAT KEEPS ON GIVING

Distinguished OAA President, esteemed members of OAA 1996, cherished Akoras, invited guests, ladies and gentlemen,

It is a great honor to address you on this special occasion of the OAA 1996 Presidents' Ball, a gathering that celebrates leadership, fellowship, shared achievements, and our enduring commitment to the legacy of our alma mater, Achimota School.

On behalf of the ASET Fund Board, I wish to express our sincere appreciation to the leadership and members of the OAA 1996-year group for your continued dedication to advancing the objectives of our association and supporting initiatives that create a lasting impact.

The ASET Fund represents more than financial contributions; it embodies our collective responsibility to invest in the future, support meaningful development, and preserve a legacy that will benefit generations to come.

One of the Fund's primary objectives is to invest donated funds and use the returns to meet the needs of the school. Year groups that establish funds under the ASET Fund can have their respective funds used to maintain their legacy projects, ensuring their contributions continue to make a meaningful and lasting impact.

As we prepare for our Centenary, may the spirit of unity, service, and excellence that defines us continue to guide our actions and inspire even greater achievements.

I encourage every member to see the ASET Fund as a shared legacy and an opportunity to make a tangible difference. Every contribution, regardless of size, strengthens our collective capacity to achieve our goals and leave a lasting mark.

While we celebrate tonight, let us renew our commitment to building a sustainable fund through generosity, accountability, and purposeful collaboration to support Achimota School and future generations of Akoras.

Thank you for your unwavering support. I wish you all a memorable and successful Presidents' Ball.

Long live OAA 1996 Year Group!
Long live the ASET Fund!
Long live Achimota School!
Thank you.

Akora Kofi D. Fynn

MESSAGE FROM THE CHAIRMAN OF THE CENTENARY PLANNING COMMITTEE

A CENTURY IN THE MAKING. A CELEBRATION FOR THE AGES.

ACHIMOTA@100: Celebrating the Vision, Honouring the Legacy, Inspiring the Future

The year long Achimota@100 Centenary Celebration is less than a hundred days away! On behalf of the Achimota@100 Centenary Planning Committee, I welcome Akora Nation to participate and play active roles in the planning, preparation and celebration of the Centenary of Achimota School!

Centenary Theme: The theme for the Centenary is, "Achimota@100: Celebrating the Vision; Honouring the Legacy, Inspiring the Future."

This was chosen through an iterative process starting in October 2023 with a call to Akoras to come up with a Centenary Theme. Representatives of the school administration and the centenary planning committee met and reviewed the submissions and put together different suggestions to come up with this theme. In the deliberations, it was agreed that the achievements of the school and the impact of old students of Achimota in Ghana and across the world over the generations must be celebrated. The legacy of Achimota in all aspects of national life, in education, sports, music, engineering, medicine, law and the military etc. must be showcased. Moving into the future, Achimota will maintain the pacesetting role it has had in shaping Ghana. We are proud to say the Achimota@100 will happen at the same time as Ghana@70!

Key Milestones: A competition was launched and a similar process was used in coming out with the Centenary Logo, which was launched on January 28, 2024, as part of activities commemorating Achimota@97. The Achimota@100 logo is displayed in front of the Administration Block with a countdown

timer leading to January 28, 2027. The Centenary Cloth was launched on June 29, 2026, after a two-year search. The original competition was launched in July 2024.

Planning for the Centenary: Achimota@100 is a celebration for the entire Achimota Fraternity. The secondary and basic schools are all part of the celebration. The Old Achimotan Association is supporting the School Board and Administration for the grand Centenary celebrations. Teaching and non-teaching staff from both secondary and basic have been mobilized. The Parent Teacher Associations is also represented on the committee. Akoras of all generations living everywhere are expected to gear up to join in celebrating Achimota School!

Key Activities: There are activities planned for every month from now till December 2027. Several committees have been set up to plan. Akoras are invited to join the committees to support the planning and to play active roles in the planning, execution and the actual programmes. The Gambaga to Accra Road Trip in January 2027 will start the celebrations. The Grand Centenary Torchlight Procession, Bonfire, Cadet Parade and Founders Day Parade is in March 2027. The Grand Centenary Homecoming is in July 2027. Achimota Speaks will be monthly and the Grand Centenary Ball will climax the celebrations in December.

Legacy and Centenary Projects: The Legacy Project for the Centenary is the Achimota School Centenary Clinic. This project is to see to the health needs of the 4,700 students in the secondary school and 4,800 in the basic school together with many teaching and non-teaching staff. The New Achimota School Farm which has started production and the Achimota Historical Documentation Project are two key Centenary Projects being supported

Sponsorship and Fundraising: A successful Achimota@100 celebration will require funding. A total budget of GHS 50 million is envisaged for the Legacy and Centenary Projects and the various activities planned. GHS 30 million is expected to be raised from corporate sponsorships, partnerships and philanthropic support. Akora Year Groups are expected to raise GHS 20 million. The 50 most economically active year groups are expected to commit GHS 500,000 per year group towards the Centenary. There are opportunities for families and individuals to donate towards the Centenary. The Centenary Square will serve as a perpetual reminder of your donation. We trust all Akoras will actively support our Centenary.

Contact the OAA Secretariat to join a committee. We trust all Akoras living everywhere will come on board for the benefit of Achimota School and education in Ghana. Thank you all in advance for the support for Achimota@100!

THIRTY YEARS ON. FOREVER AKORAS

GOODWILL MESSAGE TO THE OAA 1996 YEAR GROUP BY THE HEADMASTER

I bring you greetings from the Management, Staff and Students of Achimota School.
On behalf of the entire Achimota family, I extend my heartfelt congratulations to you, the class of 1996, on your 30th Anniversary of leaving the walls of the Grey city.

Thirty years ago, you walked out of the gates of Achimota as young Akoras. Today you return as distinguished men and women - leaders, professionals, parents and grandparents - who have lived out our motto, Ut Omnes Unum Sint - That All May Be One.

Your journey is a testimony of the foundation laid on the hill. We celebrate your brotherhood, your achievements, and your unwavering love for the great school. Your continuous support over the years has not gone unnoticed, and for that we say thank you. As you gather to celebrate 30 years of friendship, service and excellence, I pray that this reunion will rekindle the beautiful memories, strengthen your bond, and inspire you to even greater service to Achimota and to Ghana. You left Achimota, but Achimota never left you. You will forever remain Akoras, and the Grey city on the outlaws hills will forever be your home.

Congratulations!

God bless the Class of 1996.
God bless Achimota School.

96 HANGOUTS

Thirty years ago, all it took was a yell across the compound or the sound of the school bell to bring us together.

Thirty years later, it's the bond that brings us back. The laughter is just as loud, the banter just as sharp, and the stories a little more embellished with every retelling.

Every hangout proves one thing; some friendships never graduate.

HEALTH WALK

Thirty years on, we're still moving together. The Health Walk brought Akoras together for a refreshing celebration of wellness, friendship and the enduring bonds forged in the Grey City. A chance to reconnect, reminisce and prove that while the years may have passed, the Akora spirit hasn't missed a step.
